Stellar Industries Introduces Model 12621 Telescopic Crane

Garner, Iowa – Stellar Industries, Inc. is introducing the Model 12621 telescopic service crane. It is a 66,000 ft-lb crane that is capable of a maximum load capacity of 12,000 pounds at 5.5 ft. It features all hydraulic reach to 21 ft, using a hexagonal boom design to increase strength, and to reduce flex and side-to-side movement. The 12621 also features a new bar style anti-two block. An industry first in capacity and functionality, this new 66,000 ft-lb crane boasts a maximum hydraulic reach of 21' and can lift up to 12,000 pounds at 5.5 feet. It features a hexagonal boom design for reduced flex and increased strength, and it offers a variable speed, multi-function radio remote control as a standard feature. The 12621 also comes standard with a new bar style ATB system to prevent the cranes snatch block from contacting the cranes horse head.

"The 12621 is a well rounded addition to our product line. We have a 10,000 lb and 14,000 lb crane that both offer market-leading features," says Tim Davison, Product Manager, bodies and cranes. "Many of our customers needed more capacity but don't need something quite as large as the 14528. The 12621 offers a features laden crane that fits that niche." Davison adds, "And in sticking with Stellar tradition, we've made it an industry leader that exceeds market expectations!"

In addition to the 12621 crane, Stellar has designed a new mechanic truck body to accommodate this new crane. This Stellar T-Max2 body uses an improved torsion box understructure, with the proven Torq-Isolator crane compartment and E-coat primer as standard Stellar bodies. It features compartments up to 60" high and 22" deep with double panel doors, stainless steel hinges and door handles.

Stellar Industries, Inc. was founded in 1990. It is an employee owned and operated manufacturer of hydraulic truck mounted equipment located in North Iowa. Products include hooklifts, telescopic cranes, articulating cranes, and the X-Tra-Lift, as well as complete mechanic service truck packages, and tire service truck packages. Stellar is a progressive company that focuses on its people, as they are the key to making the products and the company successful.
